

Staff iPad Setup

1. If the iPad is off, make sure it has a charged battery. To turn on, hold down the power button for several seconds, located at the top right corner.
2. The screen should read "Hello". At the bottom of the screen slide the "slide to setup". Choose your language, then your region. Choose Guest Wi-Fi. If the device says, unable to connect, just try again. Choose "Enable Location Services".
3. You should now see "PINE TREE INDEPENDENT SD will automatically configure your iPad". Choose "Next" at the top right of screen. You now should see a login. This will be the same login you use for your computer. Ex: first initial last name (jpollard). Then type your password. Choose "Next".
4. You should now see "Apple ID". You can either Sign In with your existing ID or create a new one with your school issued email account.
5. Choose to "Use iCloud" to backup your device. Find My iPad is automatically enabled when you choose "Use iCloud". Choose "Next". Then choose "Update To iCloud Drive". This will allow you to retrieve your data from another iPad, in case you have problems with this one and need to be issued another iPad.
6. Set a passcode. You will have to type it twice. Choose use "Siri" and then choose "Get Started". And now you are ready to use your iPad. If there are apps you want that are free, download away. If there are apps you want that cost money, see your Instructional Technology Coordinator.
7. Enjoy!
